

## ANNEX III—DONOR FACT SHEET

**Example of “Donor Fact Sheet”** designed to track the priorities of traditional donors and match Romania’s know-how and expertise to their areas of interest (thematic/geographic) in order to promote possible partnerships and obtain financing for common projects (or hire Romanian experts in donor’s programmes.)

### BELGIUM—DEVELOPMENT ASSISTANCE PRIORITIES<sup>1</sup>

In 2005, [Belgium](#) spent € 1.58 billion on ODA, which corresponds to 0.53% of its GNI. Bilateral means accounted for 64%, while 36% was multilateral.

*(Clicking on the country name above provides a solid background to Belgium’s development assistance strategy, legal framework, funding sources, contact points, forms to fill in order to apply for funding, etc. One needs to get updated figures for 2008/9.)*

#### Geographic priorities:

#### Thematic priorities:

- Basic health care
- Education and training
- Agriculture and food security
- Basic infrastructure
- Conflict prevention and the consolidation of society.

Added to these are four **cross-cutting themes**:

---

- Gender
- Environment
- Welfare economics
- Children's rights

### **Funding programmes:**

NGOs can apply for financial support under the following funding programmes:

**Consolidation of society:** This programme allows for direct financing of NGOs from partner countries of the official Belgian co-operation.

**Programme co-funding (new):** From 2008 onwards, Belgian NGOs can apply to the DGDC for co-funding of six-year programmes based on a strategic framework agreement.

**Project co-funding (new):** From 2007 onwards, Belgian NGOs can apply for project co-funding on the basis of a six-year strategic framework agreement submitted to the DGDC.

**Programme co-funding (old):** Until 2010, Belgian NGOs can apply for co-funding of annual action plans on the basis of a five-year programme which has been elaborated by the applicant NGO and submitted to and approved by the DGDC.

**Belgian Survival Fund:** This fund exclusively co-finances projects in sub-Saharan Africa proposed by three types of partners: international organizations; authorized Belgian development co-operation NGOs and national and local authorities, and NGOs of recipient countries. It exclusively funds long-term programmes that aim at increasing the food security of families.

**Special programmes:** The special programmes are implemented by special actors which all operate on a non-profit basis. They propose different types of support.

**Conflict prevention and peace consolidation:** Requests for financing of projects under the peace-building budget line can be introduced by Belgian, foreign or international organizations. The projects subsidized complement the initiatives that cannot be supported for reasons of status or procedure through geographical, multilateral or other co-operation channels.
